NEW QUESTION: 1

You have a deployment of System Center Configuration Manager (Current Branch).

You need to configure the Configuration Manager clients to meet the following requirements:

- * Manage Microsoft Office 365 updates.
- * Configure the times at which updates can be applied.
- * Allow unsigned Windows PowerShell scripts to be executed.

What should you use to meet each requirement? To answer, drag the appropriate settings to the correct requirements. Each setting may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.
