Why other companies' test questions are more (less) than yours, Do you want to enjoy the best service for the products you have bought, We always attach great importance to quality of the C1000-136practice braindumps.

In our trade with merchants of various countries, we always adhere to the principles of mutual benefits rather than focusing solely on our interests on the C1000-136 exam questions.

In modern society, competitions among people are very fierce and cruel in job market, What is Buolkab IBM C1000-136exam training materials, Then after one year, **Latest C1000-136 Exam Notes** if you still need the newest training file you are supposed to pay some charges.

You absolutely can understand them after careful learning, But we promise you full refund if you failed exam with our C1000-136 exam dumps, Dear, you may find other vendors just provide 90 days free update.

NEW QUESTION: 1

DRAG DROP

You administer a cloud service named contosoapp that has a web role and worker role.

Contosoapp requires you to perform an in-place upgrade to the service.

You need to ensure that at least six worker role instances and eight web role instances are available when you apply upgrades to the service. You also need to ensure that updates are completed for all instances by using the least amount of time. Which value should you use with each configuration? To answer, drag the appropriate value to the correct configuration. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Answer:

Explanation:

* You need to ensure that at least six worker role instances and eight web role instances are available when you apply upgrades to the service.

* You can decide whether you want to update all of the roles in your service or a single role in the service. In either case,

all instances of each role that is being upgraded and belong to the first upgrade domain are stopped, upgraded, and brought back online. Once they are back online, the instances in the second upgrade domain are stopped, upgraded, and brought back online.
