NEW QUESTION: 2

Company XX and Company YY are the only two providers of electricity to Country M.

The demand for electricity is price inelastic which means that buyers regard it as essential and therefore demand for electricity does not change significantly if the average price of electricity changes. However customers will switch between suppliers within a year to get cheaper electricity. Using Game Theory place the long-run revenue impact on each firm of each of the following pricing decisions.

Answer:

Explanation:

NEW QUESTION: 3

Refer to the exhibit.
