NEW QUESTION: 2

whoami;who am i;id

- A. Option B
- B. Option D
- C. Option C
- D. Option A

Answer: A

Explanation:

* The whoami utility displays your effective user ID as a name. Here this would be root.

* who am i

The command who shows who is logged on.

Here this would be:

```
user1 console Dec 30 20:20
```

* The id utility displays the user and group names and numeric IDs, of the calling process, to the standard output. If the real and effective IDs are different, both are displayed, otherwise only the real ID is displayed.

Here this would be:

```
uid=0(root) gid=0(root)
```

Note:

Each UNIX proces has 3 UIDs associated to it. Superuser privilege is UID=0.

Real UID

This is the UID of the user/process that created THIS process. It can be changed only if the running process has EUID=0.

Effective UID

This UID is used to evaluate privileges of the process to perform a particular action. EUID can be change either to RUID, or SUID if EUID!=0. If EUID=0, it can be changed to anything.

Saved UID

If the binary image file, that was launched has a Set-UID bit on, SUID will be the UID of the owner of the file. Otherwise, SUID will be the RUID.

NEW QUESTION: 3

What is the result of a successful RPF check?

- A. Packet is dropped because it arrived on the interface that used to forward the packet back to source.
- B. Packet is dropped because it arrived on the interface that used to forward the packet back to destination.

C. Packet is forwarded because it arrived on the interface that used to forward the packet back to source

D. Packet is forwarded because it arrived on the interface that used to forward the packet back to destination

Answer: C

NEW QUESTION: 4

A. Option D

B. Option B

C. Option C

D. Option A

Answer: C

Explanation:

<http://www.ciscopress.com/articles/article.asp?p=174107&seqNum=3>

RIPv1, RIPv2, IGRP, and EIGRP all auto-summarize classful boundaries by default (OSPF does not). To make discontinuous networks work, meaning you don't want classful boundaries to summarize, you need to turn off auto-summary.
