Answer: A
Explanation: A cloud-based environment is a shared resource that is accessible from anywhere at any time.

Which of the following is a characteristic of a cloud-based environment?
A. It is a shared resource.
B. It is a dedicated resource.
C. It is a private resource.
D. It is a public resource.

Answer: A

Explanation:

The difference between on-premise and cloud is essentially where this hardware and software resides. On-premise means that a company keeps all of this IT environment onsite either managed by themselves or a third-party. Cloud means that it is housed offsite with someone else responsible for monitoring and maintaining it.
