and technique for scope control and focuses on deliverables and documents. [Monitoring and Controlling] [\[email#160;protected\]](#), [\[email#160;protected\]](#) Guide, 2013, 96-97

NEW QUESTION: 2

[\[email#160;protected\]](#) Azure staging environment, you need to ensure that the application is available in the staging environment. What should you do?
A. Create a new staging environment.
B. Create a new deployment slot.
C. Create a new environment.
D. Create a new resource group.
Answer: B
Explanation: Azure App Service provides a staging environment for testing and deployment. To create a staging environment, you need to create a new deployment slot. The staging environment is a separate environment that is used for testing and deployment. It is not a new environment, resource group, or application.

Answer:

Explanation:

See explanation below.

Explanation

Step 1:

Locate and open the [\[email#160;protected\]](#) web app.

1. In the Azure portal, on the left navigation panel, click Azure Active Directory.

2. In the Azure Active Directory blade, click Enterprise applications.

Step 2:

Open your app's resource blade and Choose the Deployment slots option, then click Add Slot.

Step 3:

In the Add a slot blade, give the slot a name, and select whether to clone app configuration from another existing deployment slot. Click the check mark to continue.

The first time you add a slot, you only have two choices: clone configuration from the default slot in production or not at all.

NEW QUESTION: 3

Which United States program was designed to enable organizations to bridge the gap between privacy laws and requirements of the United States and the European Union?

- A. HIPAA
- B. GLBA
- C. Safe Harbor
- D. SOX

Answer: C

Explanation:

Explanation

Due to the lack of an adequate privacy law or protection at the

federal level in the United States, European privacy regulations generally prohibit the exporting or sharing of PII from Europe with the United States. Participation in the Safe Harbor program is voluntary on behalf of an organization, but it does require them to conform to specific requirements and policies that mirror those from the EU. Thus, organizations can fulfill requirements for data sharing and export and possibly serve customers in the EU.
